## EDUCATION IN HONGKONG.

## ANNUAL REPORT ON THE EDUCATION DEPARTMENT 1919.

The following Report, signed by the Hon. Mr. E. Irving as Director of Education, was laid on the table at the last meeting of the Legislative Council:

1.—I was absent from the Colony on leave during the greater part of the year. Mr. E. Ralphs, Inspector of English Schools, acting for me. He is responsible for this Report.

## REVENUE AND EXPENDITURE.

2.—After deducting the school fees received, the total net expenditure on education was \$254,002 (\$247,362 in 1918).

3.—School and Technical Institute fees amounting to \$104,505 were collected (\$100,208 in 1918). In addition \$4,185 fees were remitted to free scholars (\$4,253 in 1918).

4.—The cost of the Government Schools is compared in Table I, with the average of preceding years.

## CLASSIFICATION OF SCHOOLS

5.—These are divided into:—  
(a) Schools exempted from liability to registration and inspection under the Education Ordinance of 1918.

(b) Controlled Schools, subject to the provisions of the Ordinance.  
SCHOOLS TO WHICH THE ORDINANCE DOES NOT APPLY.

## GOVERNMENT SCHOOLS.

6.—Queen's College.—The system of medical inspection instituted last year has been applied to Queen's College and has been extended to the Ellis Kadoorie School. It is now a rule of the Schools that recommendations made by the Medical Officer examining the school be carried into effect by the pupils concerned. In the case of defective eyesight, where a further examination by a specialist is recommended, such examination must be undergone, and where spectacles are required they must be obtained as prescribed.

7.—The College has made progress in many directions during the year, and is now in a very efficient condition.  
8.—The total number of pupils enrolled during the year was 1,139 (989 in 1918). The average daily attendance throughout the year was 609 (579 in 1918).

9.—Notwithstanding the shortage of Teachers in the Department, the staff of Queen's College has been well maintained during the year by the engagement of Temporary Mistresses, who have rendered useful service.  
[A number of extracts are quoted from the Headmaster's Report which has been previously published in our columns.]

11.—District Schools for Chinese Boys: Ellis Kadoorie, Saiyungpoo, Yauwai, Wanai.—These Schools are again full. Large numbers of applications for admission are being refused.

12.—Very good work has been done in all special attention being given to pronunciation in English.

13.—Increasing attention is devoted to athletics, school bands and swimming, and to intercourse between the boys and the European Masters and Mistresses.

14.—Ellis Kadoorie School.—The school has made considerable progress. The difference between the Upper and Lower Class Divisions was not so marked as in previous years, giving evidence of more correct classification.

15.—English is successfully taught through the medium of dialogue, while the gramophone has been used as an aid to correct pronunciation.

16.—The Drawing in this School calls for special mention. Swimming is a feature of the School, the boys practising "Swimming Drill" before taking to the water.

17.—Saiyungpoo School.—The School has been full throughout the year. In one month 115 applicants had to be refused admission. The attendance is regular, and 49 boys made every possible attendance.

18.—The discipline and general tone of the School are excellent throughout, and the work done is highly satisfactory. Handwriting deserves special praise; in a Competition open to Schools throughout the Empire three pupils of this School gained "Distinction"; while the standard of handwriting in the whole School is very much above the average.

19.—English Conversation is also very successfully taught.

20.—The School is used by the University in connection with the course for the Training of Teachers. Education Students being sent there to carry out their practical training.

21.—The Social and Athletic life of the School has been well maintained.

22.—The Library, the English Speaking Association, the members of which pledge themselves to speak only English during certain hours, the Chess Club and the Chinese band continue to flourish. A company of the St. John Ambulance Brigade composed entirely of old pupils of this school, maintained by the generosity of Mr. Ho Kom-long and under the command of Mr. Morris, does very useful work and was last year awarded the "Lau Chin Pak Duty Cup," as having presented the best record of actual duty during the year.

23.—The Ellis Kadoorie School for Indians continues to progress. Recently Upper School work has been started, which it is hoped to extend, so that in future the boys will be able to pass direct from the school to the Hongkong University.

24.—The Praya East School under a Chinese Headmaster is efficiently conducted. A School Library has recently been established.

25.—The boys are beginning to take an active interest in Athletics.

26.—Outlying District Schools.—These schools are making steady progress.

27.—The Taiipo School moved into new and more commodious premises during the year; the Un Long School still requires a new building.

28.—British School.—The attendance at the three British Schools is maintained.

29.—During the year a qualified Games Mistress was appointed to supervise the Games and Physical Instruction in these schools, with beneficial results.

30.—The School are regularly inspected by a Medical Officer.

31.—A very marked improvement has taken place at the Kowloon School.

32.—Victoria British School.—The methods of teaching are up to date and the work shows a great improvement in all Classes. The weak point is handwriting which in Classes 5 and 6 is very poor. With this exception the work of the School is very satisfactory.

33.—In December two candidates were presented for the Senior Local Examination and both passed, one with distinction in Biblical Knowledge.

34.—One candidate was presented for the Junior Local and passed.

35.—The Christmas Examination for the rest of the school showed that general progress had been made especially by those who had had the benefit of a full year's teaching. The work in the lower school was probably better than in any previous year.

36.—A course of cookery lessons was given and the practical work was done by the girls with enthusiasm. The Chinese Class for the boys was inspected by the Inspector of Vernacular Schools who reported that the boys were making satisfactory progress.

37.—During the last five years, of 30 candidates presented for Matriculation, Senior Local, and Junior Local, 23 have passed. One pupil passed directly from the school to McGill University this year.

38.—Lecturers.—During the year the lavatories have been reconstructed, and the most modern system introduced. It is now possible for the boys to have a shower bath after playing games.

39.—These improvements are in every way a great benefit and are much appreciated.

40.—Health.—The Government Medical Officer visited the school and examined the children. He reported the general health good. The school has been free from epidemics, and the attendance has not been much affected by illness.

41.—Kowloon British School.—The discipline and tone are very good. A system of prefects has recently been established.

42.—The Annual Examination conducted in December showed a general improvement in all Classes. Good progress is recorded in the Chinese Class. The Cookery Class were very successful.

43.—In the Hongkong University Local Examinations one boy was entered for the Senior Local, but failed; 4 boys and 1 girl were entered for the Junior Local.

44.—In November the first School Sports were held at the Kowloon Cricket Club and the prizes were distributed by H.E. the Governor.

45.—Since November Mr. Thompson of the Naval Yard has very kindly given the Senior Boys instruction in physical culture and in boxing.

46.—Praya School.—The School has suffered a great loss in the retirement of Mrs. Main, the Head Mistress.

47.—The number of pupils admitted during the year was 50. Fifty-five pupils left. Attendance has been good, although there was the usual falling off in July—a number of pupils going North for short periods. The School was opened on 198 days. The average attendance for the year is 45.

48.—There has been no serious case of illness throughout the year.

49.—The age of the greater number of children attending the School is under 8.

50.—During the first six months of the year, when several older children were still in attendance, a class was prepared for the Oxford Preliminary Examination, but all these pupils left before the examination took place.

51.—Belilus Public School.—This Girls' School maintains its reputation.

52.—Miss Clarke, who has been acting as Headmistress since the retirement of Mrs. Tuckey, has been confirmed in the appointment.

53.—Two new rooms for the use of the Staff have been built at the eastern end of the old building; these supply a long-felt want.

54.—18 girls sat for the Senior Local Examination of the Hongkong University in July; 12 passed, one with Honours, the only girl to be thus distinguished; she also gained a Distinction in English. In December five girls entered for the Junior Local, and all passed. Sixteen girls sat for the Oxford Preliminary in July, and 14 passed.

55.—Nine past pupils entered for the Technical Institute Women Teachers' Examination, and all passed, two with Distinction. In the corresponding Vernacular Teachers' Classes, 5 entered and 3 passed.

56.—A Laundry Class has been re-introduced. Cookery is, as in previous years, taught with great success. First aid to the injured and home nursing are popular subjects, and a Nursing Division of the St. John Ambulance Brigade has been formed among the Staff and does useful work.

57.—The girls maintain a cot at the Nethercole Hospital, and support a child at the Church Missionary Society. A sum of \$1,150 was raised in the School for the Ministering Children's League.

## IMPORTANT NOTICE.

IN Manufacture the most Important Point is Improvement, and in Dietetics Cleanliness; Science always insists on these Maxims.

Groundnut or Peanut Oil can be used as a substitute for Olive Oil, Butter or Lard, but when Slightly Dirty is injurious to health.

In China, by the Ordinary Methods of Extraction, Dirt and Dust are not guarded against. Our Method allows a great advance. By the use of New Machinery and New Methods Scrupulous Cleanliness is Assured.

Our Machinery during the Process Filters the Oil while our Factory is Free from Dust. Our Oil is Clear, Sweet and Fragrant; and Compares most favourably with other Oils used for Culinary purposes: there is no residue.

Prices are moderate so as to induce new business.

Analysis is always given before Shipment to Foreign Countries.

Foreign Correspondence wanted. Capacity per day 20 tons.

## A Double Safeguard.

When buying Worcestershire Sauce, always look for the signature in White

*Lea & Perrins*

on the Red label, and see also that the name LEA & PERRINS is embossed in raised letters on the glass bottle.

Lea & Perrins' label and bottle are copied to such an extent that these precautions are necessary, in order to make sure that you are being supplied with the original and genuine Worcestershire and not one of its many imitations.

## BANKING AS A CAREER. SOME INSIDE VIEWS ON IMPORTANT TOPIC.

Much controversy has centred round the question of whether a banking career is an ideal one, states the *Financial Year*. There was a time when a post in a bank was greatly coveted. This was followed by a reaction when work in a bank came to be regarded as a dull, mechanical grind, and only suitable for the plodder. The pay was small, and opportunities for rapid advancement for the exceptionally intelligent were few. The war, however, has revolutionised the bank clerk's prospects. Conditions have vastly changed, and prospects previously uncertain, are now sure and tempting. The remuneration offered is higher, promotion is less slow, and goes much more by merit than of old. On this much-debated subject, an article on Banking as a Career in the Monthly Review issued by the London County Westminster and Parr's Bank is of exceptional interest. The writer, while drawing attention to the advantages in salary, points out that a youth who enters a certain bank, in a country district, at the age of 18 will, in the fourth year of his service, and the twentieth year of his age, be receiving a salary of £100 per annum, as compared with £30 per annum under the regime prior to 1914, and will, during the whole of the first four years of his service, now receive a total sum of £250 (apart from "cost of living" bonuses) as against a total of £100 before.

Another considerable difference which the war has made in the prospects of the bank clerk arises from what is described as "the growing internationalisation of banking." English banks have not only amalgamated with each other on a large scale, and gradually extended their foreign exchange departments, but they have acquired an interest in foreign and colonial banks, and have, in some cases, formed subsidiary companies working in foreign and colonial centres. These movements have operated in favour of the bank clerk in two ways. They have caused the institutions to choose many of the more qualified members of their existing staffs for service abroad, or to help in the transaction of foreign business, here, and taken, in conjunction with the opening of many new branches in this country they have increased the rapidity of the flow of promotion at home. Banks are also beginning to offer scholarships with liberal allowances in addition to salary, to promising and especially qualified members of the staffs—scholarships which enable their holders to go abroad, study foreign languages and customs, and familiarise themselves, on the spot, with foreign banking methods. The demand for men with a knowledge of foreign banking at present far exceeds the supply, with the inevitable consequence that their services are greatly competed for, and comparatively highly remunerated. Additional inducements are also held out to men to qualify for their business by passing the examinations of the Institute of Bankers, and other recognised agencies for technical education.

The passing of such examination (when coupled with good work at the bank) is being made "a stepping stone to higher things," and the whole scope and outlook of the rank and file have thereby been materially widened. The great improvement which has taken place in the last three years should be more widely known, but it must not be inferred that progress has reached its zenith. Quite recently—not more than two weeks ago, in fact—one of the most important banking institutions in London had to meet a fresh demand on the part of the staff. Wild talk of a "down pen" policy was indulged in, but the foresight and the straight dealings of the directorate prevented any such demonstration. Without the least possible doubt a banking career nowadays offers more in the way of opportunity to the intelligent youth than in the days gone by. In a few days the young man with an inclination to travel frequently joined the staff of some foreign bank with an office in London simply in the hope of being transferred to the colony where the main business of the bank was carried on. Now, owing to the expanding policy of the British institutions, there is every possibility for travel, and with added security.

## ENGLISHMAN AS BUDDHIST NOVICE.

### INTERESTING CEREMONY IN CEYLON.

Devout Buddhists from all parts of Ceylon and several Europeans, including the leading members of the Life of Buddha Film Company, flocked the other day to Bambalapitiya to witness the ordination of Mr. Arnold Malabar, a Sheffield Englishman, as a Buddhist novice. The Ceylon High Priest, Pelene Siri Vajirana, supported by a number of monks garbed in the well-known yellow robes received Malabar as he entered wearing the white robes of the upasaka or student, who making an obeisance, formally requested ordination as a Buddhist novice. The High Priest then handed Malabar a yellow robe amid cries of "Sadhu." The High Priest then read ten precepts of the Buddhist priesthood in Pali and gave Malabar the name of Mahinda Samanera. After the pithy or song of exhortation and encouragement had been chanted, the new Samanera began duty as a teacher by reciting five precepts for the laity. He then addressed the gathering in English, a number of well-known Sinhalese Buddhists then announced that they had vainly tried to dissuade the new Samanera from entering the priesthood, as the life of a Buddhist monk is not easy for a European.

It is understood that Mahinda Samanera intends to spend three years in Ceylon in the study of Pali and later of Sinhalese, and will then return to spread Buddhist doctrine in England. He is said to be a late conscientious objector who was imprisoned twice during the war for refusing to do military service.

**Are you  
liverish?**

A common accompaniment of "liverishness" is a feeling of despondency and irritability. Little things, that ordinarily would not disturb you, get magnified out of all proportion to their importance. Perhaps you have throbbing headaches, or blurred vision. Or you may be troubled with biliousness and depression. All this comes about because the liver is not doing its work properly.

What is wanted is an effective liver corrective and tonic, and there is no better help for a tired and overworked liver and stomach than Mother Seigel's Syrup, made from the medicinal extracts of more than ten varieties of roots, barks and leaves. Just 30 drops in water, taken after meals, will make all the difference in your well-being. Test Mother Seigel's Syrup for yourself, and prove its worth.

**TRY
